Why do we repeat tests?
Which statements do you think are correct or incorrect?

- Because the first reading might not be right
- Because readings can be different
- Because things might be a little different, so we will need an average
- Because we need to check our results
- Because we need more evidence
- Because we need to make the test fair
- Because we need to measure accurately
- Because we need to all have a go

Today's bible reading **Luke 10: 25 - 37 The Good Samaritan.**

I wonder what you think the message of this parable is? So, who loved their neighbour?

Do you think loving your neighbour is still important today?

Who else might be your neighbours in your community? Who might need help or support?

Get up and look out of your windows - who are your neighbours?

I invite you to join with me in a prayer, for our neighbours, our communities and schools.

Dear God,

Help me to be a good neighbour, to love, care and serve those who may need my help or support.

It can be quite difficult at times to love all of my neighbours, so help me to be kind to everyone I meet and teach me to love people like you did.

Thank you for all those who live in my community, bless and protect everyone, especially those who are poorly or sad at this time.

Thank you for all those who are helping us with our learning, we are really grateful for all they do to guide and teach us.

Amen.
